An Open Letter from The Creator

You are about to be introduced to a system along with a "top secret" product that will allow you to succeed wildly with almost any opportunity you choose to pursue. You are finally in the right place at the the right time and I promise you...I will give your life back to you if you are one of the handful of people who "get it"!

So sit back, get your favorite beverage, and read on. I guarantee you this report will change your life forever...if you let it!

My name is David Preston. You may have heard of me before even though I maintain a low profile. I'm very happy with where I'm at and what I've accomplished in my life so far. I live in a beautiful home with my wife and four children on the coast in South Carolina. I have many automated income streams that generate more than enough money to live very comfortably, even if I decided to quit today! If you aren't able to say the same... this report will be very important to you.

I've been fortunate enough in my consulting life to work with some of the biggest names in business and marketing. I've been in the "inner circle" for years now and have worked with the likes of Mike G, Mark Hendricks, Abe Cherian, Joseph Iorio, Cody Moya, Phil Basten, Jane Mark and too many more to list here. I've been invited to the Playboy mansion for the "Top 25 Internet Marketer's Summit" and I have a meeting this month in Atlanta with Matt Bacak to discuss a new joint venture I'm launching.

I didn't tell you that for bragging rights or to be boastful. I could care less about that kind of stuff. The reason I mentioned all this to you is so that you may get an idea that I know what I'm doing! I've actually picked up the nickname of "The Wizard Behind The Curtain" from one of these guys and it stuck. In a conversation with one of them about this system he said to me, "So the wizard is finally going to step out from behind the curtain? It's about time!" (I think he's the one who labeled me with that nickname but he's not telling.)

What all of this means to YOU is simply this. I have been involved in the launch and pre-launch of many internet Companies, and many of them are now giants. I've seen distributors suffer and fail with great Companies and opportunities because they simply weren't marketers! I know that you have probably tried many different opportunities and failed or you wouldn't be reading this right now. In my vast experience it ALWAYS comes down to the fact that people don't like selling!

People like to buy, but they don't like being sold.

I have created a "fool proof" system here that takes all that away from you. There are several different methods I will share with you in this report that will open your eyes to what is really available for you...all within this incredible system.

If you would like to learn some marketing that is guaranteed to work well, this is your system. On the other hand, if you would like for us to do it ALL for you that's an option that will also be available for you. What this system does is take the marketing away from the individual distributor. If you're not the one marketing the products or system then you can't fail. It's as simple as that.

Sincerely,
David G. Preston

Included In This Report

Within this report you will find a lot of "freebies" I will give you, that will change the way you market any opportunity. These are not just fillers or links to clutter your hard drive like most of the garbage being given away out there!

These are the same programs or systems that I and my team use to generate astronomical returns on almost anything we decide to get involved in. You will also find clear concise directions for their use and implementation, along with a summary of how they will benefit you. In fact, everything you will ever need to market anything on the net effectively, you will find somewhere within this report!

You may be asking yourself why I would just "give away" some of my best kept secrets? The answer is simple, and after I explain it you'll begin to understand what I'm all about. First and foremost I want you to know that I WILL BE BRUTALLY HONEST WITH YOU about what it takes to generate a six figure income from home.

Some of it will open your eyes for the first time and may even shock you. Some of it will make you really mad for being "duped" into buying the latest, greatest "guaranteed to make you rich overnight" product or program.

If you pay attention and really let this entire report sink in you'll never have to worry about that again. I know you've probably heard that before, but as you start to grasp what I'm showing you here you'll quickly understand that I can back that statement up 100%!! As I said before, I will be totally honest with you but you must be honest with yourself.

Speaking of being honest, here are the reasons I took the time and energy to put all this together for you AND why I am willing to share my secrets with you.

- 1.** I want you to join this opportunity and become a member of my elite team. Is it going to cost you? Sure it is. Will it be worth

what I ask you to pay for it? Only you can decide that.

2. I absolutely want you to use this information to succeed in whatever you do, whether you decide to join me or not. Yes, you read that right. Am I crazy? No, I'm just smarter than the average bear. Here's why. Even if you don't buy into my system I want you to succeed because YOU will know I am the one responsible for finally changing your life!

Still confused? Here it is in black and white. As long as you succeed by doing what I share with you there's a VERY good chance that you will buy whatever I send you in the future because you know it will work! (I told you I'd be honest.)

3. If you haven't done so already, you will sign up and become part of my "list" because I will be sending you via email specific information and the FREE products I mentioned earlier. If you opt out-you miss out...period. That means you will actually look forward to receiving an email from me instead of my offers winding up in your bulk mail.
4. If I truly show you how to make six figures a year from home you will be able to afford anything I come out with in the future, and you will absolutely want to "get in" on it at the very beginning. (It's a trust issue. You know you're not going to get "roasted" with something else that doesn't work.)
5. Even if you don't become a part of my team there is so much really valuable information in here that I know you will pass it on to anybody and everybody you care about. You may not join us but some of them will! You will be their hero and I will have a chance at them as well for FREE! (I told you I was smarter than the average bear!)
6. There are brandable links within this report so you can insert YOUR links instead of mine and make money giving this away. So once again, even if you don't join us you will want to get this into as many hands as possible. I have also included the software to accomplish that for you.

So, there you have it boys and girls! That's the truth, the whole truth and nothing but the truth. Now, I need you to do me a favor. Reach out and take me by the hand and I will lead you behind the curtain and show you what's really there. Don't let go and don't be afraid....I'll be holding your hand firmly all the way into the light!

Who Should You Listen To ?

I will be the first to tell you that I almost made the biggest mistake of my life because of my friends and family. How I started in this business is going to be the first important lesson you should learn.

Years ago I worked for a billion dollar retailer. I started at the bottom and worked my way up to one of the top positions in the Company. I had a six figure income, a \$35,000 dollar Company car and was in charge of the entire east coast. I put my heart and soul into that opportunity and thought the 70 hour weeks were finally worth it. After 12 years of killing myself I had finally made it! I was as close to the top as you could get with a Company that had been in business since 1936. I was safe,... or so I thought.

When it came to success, I was the main topic of conversation at the family reunions. I was like E.F. Hutton. When I spoke everybody listened, EXCEPT when I told them I was leaving the corporate world and starting my own consulting business.

It was just like flipping a switch. NOW nobody would listen to anything I had to say and I had suddenly "lost my mind" or gone crazy overnight! I heard the same thing over and over from everybody, including distant relatives and friends I hadn't spoke with in years. "Are you crazy!?" "Have you lost your mind?" "What are you thinking?"

The worst of all was from my parents. I know they meant well and thought they were only looking out for me, but even knowing that I almost lost faith in myself because of their well meaning pressure. They sat me down and tried to make their case. "Look son, you have a huge mortgage payment, kids who depend on you and bills that have to be paid. The bills will continue to come whether or not this harebrained idea of yours works or not. You can't just think about you! You have to start thinking about "reality" here for gosh sakes!"

It got to the point that I actually decided to quit going around them

until I got my new business off the ground. You see, I knew I could do it. I just had to prove it to them all over again.

The funny part of all this is that by the next family reunion I was doing better than I ever had in my entire life! For once I really enjoyed what I was doing. I had a passion for what I did now, and as a result clients lined up to pay me large amounts of money to help them with their business.

Now the very same people that gave me such a hard time about my harebrained idea are the same people who tell everybody, "I knew he could do it, he's always been that way"!

The reason I shared this with you is pretty obvious. YOU ARE GOING TO GET FLACK about this business from the very people who should be encouraging you. Be prepared for it and decide for yourself what's in your best interest.

Are you going to listen to well meaning Uncle Ed who has three cash advances he's trying to float so he can get parts for his 15 year old car, or will you listen to someone who's making six figures a year from home? The decision is, and has to be, totally yours.

Here's lesson one. Never, EVER listen to anyone who is not getting the kind of results that you want! If you do, you will wind up getting what they're getting instead of getting what YOU want.

By the way, the billion dollar company I worked for was Heilig-Meyers. They filed for bankruptcy and closed over 800 stores in less than 3 months.

Leaving them was one of the best decisions I've ever made.

First Things First!

Just about everybody who reads this report will just "scan" through this section and jump to the traffic section. I can understand that, because nobody really knows how to create tons of visitors to their offers. Skipping this section would be detrimental to your on line health. After all, what good would it do to have visitors to your offer who don't convert into sales?

Here's your first on line marketing secret. *You must be able to write effective copy to convert sales.* Think about it for a second. It doesn't matter if it's an email, newsletter, auto responder series, web page or an ad to generate traffic...you have to be able to write compelling copy that pre-sells your prospects on your offer. This is one of the biggest mistakes just about every "newbie" makes. The bad part is that it can take years to become a good copywriter. (Until now.)

You normally have only two choices when it comes to copy. Learn to write it yourself or hire somebody to do it for you. The first option can be a long and painful learning curve for most folks. The second option is usually not an option for most marketers either because of the cost. Good ad copy written by a pro can be as much as \$15,000 per project!

Here's an example of what I charge for ad copy: \$1,000 per page, I decide how long it needs to be, and I get 5-7% of the net profit as long as you continue to use it!! However, the last lead capture page I wrote for a client converted at over 17%, so it was well worth the makeover charge for the client.

What if I could turn you into an instant ad copy pro? I am going to give you a huge secret right now. There is software available that writes the most compelling copy available and almost all of us use it! That's right. Just about all the top notch writers I know simply start up this software, choose from thousands of headlines, bullet points, closes, connectors and just copy it to word pad!

Once copied you can go on to choose your power words, triggers, subliminals and killer closes. Take 15 minutes to put it all together and you have an email that generates an average response of over 15%!! Talk about auto-responder heaven...this is nirvana!

Put this software together with a killer template and you're rolling all the way to the bank. How much would you pay for software like this? (Believe me it's priceless.)

Just to start you out on the right foot, AND to give you an idea of what it's worth to be on my team...I'm going to give it to you FREE! Not only will I give it to you, I'll throw in a killer template for you to use in your emails, or as a web page that is guaranteed to boost your response rates!

Just point, click, copy, paste and BOOM you're an instant pro. This should start to give you an idea of what kind of success you can experience by becoming a fully paid member of my team. Is it a bribe? Sure it is. It's a shameless, in your face bribe...but this is just a taste of what's in store for you inside this report.

This template is a gift from legendary marketer Mark Hendricks. It's so good in fact that our site was created using this template and ad copy software. You can see it here: [1 Up To Wealth](#)

Be warned though! Don't visit it unless you're ready to whip out your wallet and join. It's that good!

Now that you know what to put in front of them, it's time to find out how to get them there!

Traffic! What It Is And How To Get It

Before I share our opportunity with you, I want to make sure you understand what drives ALL sales on the internet. TRAFFIC! Simply put, traffic is defined as the number of prospects that visit your website. The more visitors you have the more traffic you have. The more traffic you have the more sales you have.

As an example, the average percentage of visitors that actually buy a product is a dismal 2%. That can be much higher if you know what you're doing but the overall average is about 2%. So if you have a good sales letter, (site) 2 people out of every 100 will buy what you are offering.

Most folks really struggle with driving traffic to their site, and eventually give up out of frustration and wind up just buying traffic. The really sad part is that 99.9% of all the traffic re-sellers on the net are a scam. They quickly part you with your hard earned money and deliver no real visitors to your site at all. I know they can show you afterwards that they delivered what you ordered, but the bottom line is you received no sales whatsoever.

I know how they deliver your "ghost" customers but it's too complicated for most to understand, which is why you were scammed in the first place. Don't get me wrong, there are a small handful of operators who really do deliver, and our team uses them but we know them personally. Here's another lesson for you. Stay away from guaranteed traffic sites! For the most part they're all bogus.

Here's something else that will probably make you even more upset than that. None of the big boys on the net ever spend a dime on traffic. Yet, they have some of the highest traffic sites on the net. How do they do it? Free traffic exchanges? High priced SEO experts? Pay per click? Wrong, wrong and wrong again grasshopper, but read on and I'll show you how.

This is one of the biggest secrets there is. How to generate real traffic to any site you want 100% totally FREE! There are two major methods to drive hordes of traffic to any site you own. I will cover them both here, but you must first put aside any thoughts you have about IF they might work, and take a big boy's word for it....they do work!

The First Method is called "Article Submission." If you're not familiar with this, you need to get familiar with it real fast. It works like this. You write a small article, 300-500 words that is related to your market. Then you submit that article to as many directories as you can stand. (About 40-50 if possible.)

What happens next is nothing short of a miracle. Once your article is approved and posted it starts getting hits that drive the people to your site, and they're pre-sold on your product before they get there.

At the same time website owners visit these directories on a daily basis looking for "content". If your article pertains to their audience they will put it on their site for content. Now you start benefiting from all the traffic they have. This happens over and over and your traffic grows exponentially day after day! If you really want to explode your sales, submit an article a day and you'll be rollin' in traffic in no time.

I'm going to make this REAL easy for you. I'm going to give you the exact same software MY TEAM uses for FREE! On top of that, I'll tell where to get someone to write your articles for you in case you were sweating that part of the process.

Download the software here:

[Free Article Submitter](#)

Bonus Includes step by step videos made by Brad Callen who invented the software!

Then you can go to www.thearticlefactory.com to hire an article writer. There are a lot of them out there but these are the writers our team uses. For a more in depth look you can download free 10 page report that covers most of it here:

http://downloads.copyblogger.com/Article_Marketing.pdf

The Second Method is called "Viral Marketing". It works faster and even better than SEO. Don't believe me? Mike Filsaime turned "Instant Buzz" into the 1,500th most visited site on the internet ALL with this method!!

Here is a FREE 30 page report that spells out this method in the kind of detail I can't go into here. Get it now

http://downloads.copyblogger.com/Viral_Copy.pdf

As you've probably figured out by now this e book was created by me to drive insane amounts of traffic to our team site. Does it really work? This report started out in the hands of less than 1,000 distributors and within a very short time was in the hands of millions

So now you have two tried and proven methods to generate massive traffic to your site. My team also has access to SEVEN more simple methods that work in conjunction with these two to supercharge their results!

As a full member you also have the option of turning it ALL OVER TO US, AND YOU JUST COLLECT THE COMMISSIONS!! More on that later...

Now we will cover what you need to do next!

What Next?

I knew you were going to ask that! Hopefully now you have a grasp on the basics of on line income. You've learned three of the basic lessons to start.

Never listen to anyone making less than you are. (Even if they're trying to "save" you.)

How to become an instant web copy pro. (Along with all the tools needed to accomplish that.)

The REAL methods used to create hordes of visitors to your offers. (Our team can use one article and grab the top spots on every major search engine....but I won't share that with anyone outside of our team.)

Now you have to have somewhere to send them! If you've read this far, then you may actually be serious about changing your on line nightmare into the lifestyle you've always dreamed of...and deserve

Hopefully you'll be sending them to your new 1uptowealth member site but in the meantime I'll share another secret with you.

I know you've heard it before and you're about to hear it again. The money is in the list. As a newbie in internet marketing it can be a very frustrating statement. Why do you need a list? How do you get a list?

Where do you start, and what do you do to create this "magical" list and why is it so important? *Take a deep breath and calm down*. I've still got you by the hand, and we're almost into the light, okay?

Creating a great list is essential to your on line success. I know you've read those stories about how the "gurus" just sit down, compose an email, press enter and rake in thousands almost instantly. Those are not stories!

It's all done with their current in house list. I have actually generated over \$16,000 with ONE email using the tools I've already given you. So it's not fiction, it's being done everyday.

Here's a deal I cut for you with internet giant Robert Puddy. This package includes a squeeze page generator, free products to give away, and it's all hosted for you free! What will it really cost you? Your name and email-that's it. You become a part of his list in exchange for something really valuable.

He benefits from my marketing expertise and in return he puts a back link on his site to me so I benefit from his traffic.

Simple, effective list building that benefits both of us. (Of course the team knows exactly where to go to set these deals up fast and simple.)

Get your Squeeze Page here:

<http://www.instantsqueezepagegenerator.com/index.php?rid=1984>

and get started on your list now.

Don't put this off. It's that important.

A good list WILL make you money. I have shared the first secrets of building a solid online income, now I will give you the tools to coordinate your list.

You can spend hours of time trying to keep up with a list that's growing daily. There are several ways to combat the "time" element in list management.

I will introduce you to our method of Excedrin free list management!

Now that you understand why you need a list and how to build your list, we can move on to list *maintenance*.

Building Your List And Maintaining It Hands Free!

Now that you know how to get the traffic to your new "squeeze page", it's time to cover list maintenance. I won't need to spend a lot of time on this because it's actually pretty easy with the right tools. The main weapon you need to build your list and maintain it is a good auto responder system.

There are tons of them out there. Free systems, cheap systems and outrageously expensive systems. Since you're just starting out, price is almost always a factor.

The main feature you want is the ability to "export" your list. Why? Because if something happens you want to have a backup copy of your list so you won't lose their information. Always download and save your list at least once a week. You can always upload it into a new system later if necessary instead of starting over!

Free may be the only choice for some of you, but you have to consider what your list is worth. It's pretty obvious that your list is worth a lot more than \$20 bucks a month, right? (That's what most of the paid systems cost.)

If you have to have a "free" system try to find one that doesn't have all sorts of ads and messages attached to your outgoing emails. Almost everybody on your list will know you're using a free system and believe me,...it does make a difference if they get the feeling you're a cheap, fly by night marketer!

Spend the \$20 bucks, your credibility to your list is worth it. I know you've seen the commercial where the leopard says, "It's not easy being cheesy." Guess what? It's easier than you think. Don't shoot your own messenger in the back as he's riding off with your mail!

There is one system that all the industry giants use, including me and my team. It's called "A Weber." If you have ever received an email from the giants I can guarantee you that you've seen a weber in the

link. That's because they're using the built in "tracker" to check the response to each offer.

Tracking your offers and response is another essential element for your on line success. This system has one built into it that does it all for you. It will clean your list, stay in touch with your list and the best part is costs the same as many of the inferior systems.

I've arranged a special deal just for folks getting started on the internet. It's very "newbie" friendly and you can also make free money with them under this offer. The last page of this report will show you how to use this free e book to start making money with the links in here...even if you don't join us!

You can get this special deal, while it lasts here:

[A Weber](#)

It's a good, solid system especially for "newbies" and it's only about \$20 bucks a month.

We especially like it because as YOU grow your list, this system will grow with you. You can step up to larger capacity when you're ready. As your list grows and you find the need to increase the capacity you will be able to afford it easily.

Because the money is in the list!

In other words, you never have to come "out of pocket" as you grow and add more storage for your list. If you are working the list at all with a decent offer, you should already be in the dough!

Now that you know how to build your list and maintain it from the beach, let's move on to how all of us make tons of money. One word can describe what we do and how we do it. It's called *LEVERAGE*...

How Our Team Uses Leverage To Stay On Top Of The Financial Heap!

There is only one thing that stands between where you're at now, and living your dream lifestyle. ACTION!! Everything you need to succeed wildly is contained in this report.

It really doesn't matter what program or system you're currently involved in, the information in this report will get you where you need to be fast! But guess what? You can read it 50 times and feel the light bulbs go off every time you read it, but unless you apply it....you're just passing time.

I told you I would be brutally honest with you, but as I said before you have to be honest with yourself.

Here's the pitch. You knew it was coming right?! By now you should have figured out that I'm an "in your face" totally honest kinda guy. By the time you finish this section you should be whipping your wallet out and getting in line to join our team.

I'm going to prove to you why you would have to be totally insane to pass up this special offer. Deep inside, you already know that I've hit the nail on the head about everything you've experienced on the internet until now.

I'm not psychic, I just hear it from every new member who joins the team. Am I going to hit you heavy with this offer? ABSOLUTELY! Because I know that becoming a part of this dynamic team WILL change your life, point blank. You don't have to take my word as gospel, I can provide you with pages of real people who were in the same place you are right now. Just take a look at the "members speak" section!

Net marketers call me their "Secret Weapon"

Now that you know how much you'll have to invest in yourself, we'll move on to the compensation plan and how you can use it to stay on top of the financial heap!

How To Make \$400 A Day Using No Brains Of Your Own

Over the years I've seen and developed a lot of pay plans for clients. I really have seen them all. I chose this one because it pays immediate money up front, (when you need it most!) and it also delivers a boatload of "instant" residual income very fast.

Unlike most plans, it doesn't take 50 or 100 sign ups to make \$25 delivered by company check. It only takes 2 sales to earn \$400 up front AND \$400 residually! Once you have 2 sales you have activated your first pay line that continues to pay you \$400 over and over! It doesn't matter if you're on the beach or God forbid in the hospital, it

continues to pay you. Here's another BIG factor. YOUR money is paid directly to you through our incredible system.

I never, ever touch your commissions because it's not my money. It's yours, period.

When you begin your journey with our team, it all starts with the \$497 payment. When you join you will actually have TWO separate payments. One payment for \$97.00 which covers your marketing site, hosting and admin fees. (I do not charge monthly fees of any kind, I've always thought that was bogus anyway.)

The other \$400.00 "rolls up" to the person that signed you up if he is "qualified". (Remember, since I don't touch your money there has to be two payments.) Now, how do you become "qualified" to receive your commissions?

After you join, not only does your \$400.00 enrollment fee go to your sponsor, you must "roll up" your first sale to your sponsor as well. I know you're thinking it's a bad idea to give up your first sale. I can understand that, but here's why it's a great idea!

By giving up your first sale to your sponsor they have made a total of \$800.00 from one referral. After you roll up one sale, you're qualified for life! Now you are in the same position as your sponsor. This is where the instant residual pay lines start paying YOU over and over. See it here:

[1 Up To Wealth](#)

Now that you're qualified, your next sale will pay the \$97 admin fee and then pay you the \$400 enrollment fee. As an example we'll say their name is David. (I'm already sold on it though so don't try it.) Now that I've paid you \$400 for the enrollment, I also owe you my first sale.

So I give away this free e book to tons of people who really need it and it's branded with my link, just like yours! (Don't worry, we show you how and where to give it away.)

Now, something incredible starts to happen.

Everybody who gets their hands on this e book starts giving it to everybody they know, because it's great information and it's FREE! Very shortly I have an army of people giving my main marketing tool away. Out of hundreds and then thousands of desperate marketers reading this, a LOT of them will also want to end their nightmare and join us too!

When they join with my link, the system will automatically place the roll up to YOU and the next to me. The roll up you received also owes you their first sale. This continues to infinity, forever!!

Very shortly you can have 2,4,8,16 or even 32 independent pay lines ALL sending you their enrollment fee and their first sale! As my good friend Mike G says, "COWABUNGA"!

Believe it or not, it gets even better. Because I know that nobody likes to market, not even to give out a free e book, I have added another system that allows you to actually purchase your pay lines.

Yep, you read that right. For the first time in history you can pay your fellow members to build your pay lines for you! It works like this. For every pay line you want we will charge you \$150 and you go on the list.

In a nutshell it's a co-op that you remain in until you get a full \$400 commission! We open the co-op for 50 sales and then close it until our marketing efforts net you a sale.

We use a variety of methods for the co-op but I won't give away ALL our secrets.

It's just really simple. When you first join our team is when you need that "boost" to get you over the hump. After you get going it's pretty easy to continue your paylines. Especially if they also have access to a system like this. You pay once and STAY in the co-op until you get a sale...that will help your bottom line fast!

To find out how to put it to work for you simply contact us through your back office and a staff member will be more than happy to explain it and get you on our payline buy out co-op. There's not another one out there like it...anywhere!

Before you read some of these I'll share another big secret with you. I am a strong advocate in multiple income streams. Every system or opportunity you've ever joined has told you, "Drop everything else and start marketing this." I think that's the most ridiculous "plan of action" you can make!

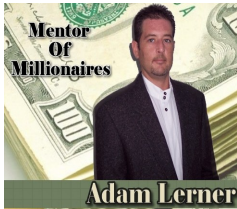

This team knows that I firmly believe that you MUST have more than one income source. I teach it, I preach it and I believe it. Why would you want to throw away the money you've already invested in another opportunity? Why not capitalize on what you'll learn here and put it to use on your other opportunities!?

Use what I teach you and you may be able to finally beat that "auto ship payment" every month and start making money!! We don't care what else you're doing, (as long as it's legal!) our purpose is to make you successful, ...period.

It's this philosophy that makes our team such a "force to be reckoned with." I want you to succeed in whatever you do, not just with this opportunity. Why? Because in your heart you'll know that I am responsible for your success, and when I launch any product you'll be one of the first to line up with a true testimonial....which of course helps me and my team.

Here are just a few. I honestly didn't have room for all the testimonials I received without writing a separate e book!

When it comes to building "super slick" systems, this is absolutely the "go to guy" for programming! I use him, I refer clients to him, and just about every other huge marketer I know uses him too. He's the talent behind almost ALL of the most successful sites on the net! To be honest with you, it floored me when he stepped out from behind the scenes to send me this:

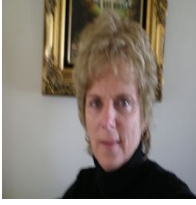

"In all the time I've known you I've always wanted to "break into" marketing. As you know, I've built systems for some of the biggest names out there. (Thanks for the referrals buddy!) I always knew that when the right one came along I would know. As soon as you told me this one was yours I joined it right on the phone! Remember when I said, "\$500 bucks, that's it? You should go for \$5,000 you know it would sell!" When it comes to marketing, you truly are "The Wizard." Every time I'm on the phone with you I learn something, and thanks for showing me yesterday how to increase my profits by 20% while outsourcing at the same time. That was brilliant! I still think you need to charge a lot more, but I know you want to help the people who can't afford to pay you \$5,000. I've never, ever given a testimonial before, but I want you to use this so people know who they're really dealing with. Thanks for being YOU!"

PS...David, Thank you for all you are doing for everyone!! I have to admit that Patti and I love learning and we are thanking God everyday for bringing you and Susan into our lives. Love you guys!

"We honestly have to say we were at first doubtful about any marketing business "working from home" only because other programs we tried failed. We were excited to be introduced to a person who heads up not one but several programs and now we know why. Now we are part of an

exciting team that is organized by one of the great all time marketers. His name is David Preston from South Carolina. David brings to the team so much knowledge and "yes" he is willing to step out of his comfort zone to achieve, to teach, and to help others achieve their goals. David taught several classes on small business marketing at college campuses of which he was given lucrative compensation. David helps you reach your goal in whatever the situation, simple or complex. You really work as a team helping and sharing ideas with one another and David. One of David's goals is to share his administrative skills in marketing with a team atmosphere to help others. He gives you the confidence and ability through his teaching and leadership. The program he has brilliantly put together gives us as a team the assurance as we work together, that through his leadership and dedication, we are going to achieve our goal. We really do work as a team. Each day is always exciting! Come join our team and be thankful with David Preston's teaching and guidance, you'll succeed !!!"

The "classes" Ray and Ann are referring to paid me over \$5,000 for ONE DAY and it was so packed we had to move to a nearby auditorium! For a measly \$500 bucks this is not just a deal...it's close to outright theft!!

"Thank you for the opportunity to work on this team in this opportunity. The support and mentoring you give the team is outstanding! I am thrilled and excited to be part of this latest venture! Hands-free automation is the way to go! There was \$800 in my bank account the other day as a direct result of this system. Everyone that sees this program joins. Thanks for all of your time and great help!"
